Anandi (Alison Francis) has been in the wellness field for 30 years. She's the creator of Sleepology by Anandi®, a new wellbeing process and in-depth enquiry into the causes of stress, exhaustion and sleep issues.

Anandi is the author of 'Breathe Better Sleep Better' which explains how to use the breath as a healing tool, not just for sleep, but for wellbeing as a whole. She has appeared in the press all the major glossies including Cosmopolitan, Women's fitness, Psychologies, Daily Mail, In the Moment, Spirit and Destiny and the London Evening Standard.

Anandi works with those who are struggling with just about everything and in particular sleep. She knows personally what it's like to suffer from insomnia night after night, month after month, year after year. She understands how lack of sleep ruins your creativity, affects your relationships and has serious effects on your health. She also knows that you look and feel awful when you don't sleep well.

Testimonials

Testimonials

"During a time when the world experienced drastic change and with many of our employees reporting they felt more restless and weren't sleeping well over the last 10 months, we approached Anandi to be part of Captify's wellness programme. Anandi has now delivered three virtual workshops, tailored to include our employee sleep treats gift box and inspiring our employees to understand their own personal sleep type. Anandi delivered advice, tips and practical exercises our employees can adopt into their everyday lives. Employees were impressed with the interactive nature of the workshops and realisation how breath and physical nourishment impacts a quality night's sleep which is fundamental to being healthier and happier. Thanks again Anandi"
